

# ECCOLO

## THE TRADITIONAL STEAM SAUNA
## LOW ENERGY CONSUMPTION

- **Exceptional materials :** An exterior structure made of spruce, enhanced by a red cedar finish, combining robustness with timeless elegance.
- **Luminous ambiance :** 7-color LED strip for chromotherapy tailored to your desires.
- **Energy efficiency :** Une consommation minimale pour des séances responsables et performantes.
- **Optimal insulation :** High-quality design ensuring long-lasting and even heat distribution.

## MINIMAL CONSUMPTION, MAXIMUM COMFORT

**A sauna with optimized insulation for significant energy savings.**

All parameters have been carefully considered to ensure energy conservation. Its walls are insulated, the space under the benches is closed (EC04), providing optimal insulation, and the elevated benches promote more intense heat.

With a substantial volume (up to 6 people), such a sauna would typically require an 8kW stove connected to a 380V electrical outlet. However, thanks to our optimal insulation, a simple 4.5kW stove, similar to those used in 3-person saunas, is sufficient.

Exterior: Spruce & red cedar finish

7-color LED strip, dimmed lighting, and chromotherapy

Elevated bench (EC03) and double bench (EC04) for enhanced heat

Integrated seating for compact and functional comfort (EC03)

## TECHNICAL SPECIFICATIONS

| | | |
|---|---|---|
| **References** | HL-EC03PK | HL-EC04PK |
| **Version** | 2-seater | 6-seater |
| **Dimensions** | 150 x 130 x 190 cm | 200 x 175 x 190 cm |
| **Materials** | Spruce & red cedar finish | |
| **Included options** | Interior LED Chromotherapy | |
| **Installation** | Elevated bench | Double bench and abachi headrests |
| **Included accessories** | 3.5 kW / stones / bucket / wooden ladle / thermometer / hourglass | 4.5 kW / stones / bucket / wooden ladle / thermometer / hourglass |
| **Insulation** | Mineral wool insulation + vapor barrier | |
| **Warranty** | 2 years: electronics \| 10 years: woodwork | |
