Inflate your SUP and kayak quickly and easily with our STAR PUMP electric pumps.

The Starpump 9+ is the ideal ally for those who want a complete, high-performance product. In addition to its dual airflow system, which allows it to pump up to 20psi, it can also deflate your SUP. Your SUP can be stored more easily.

The STAR PUMP 9+ electric pump quickly inflates your SUP or kayak up to 20 psi.

It connects to a 12V-15A socket or directly to a conventional electrical outlet to recharge the 6000mAh battery,

Set the desired pressure on the pump's LCD screen. The STAR PUMP 9+ stops automatically when the set pressure is reached.
